## Introducing the Machinedrum SPS-1 UW Userwave – Sample Enabled!

---

The addition of samples into the Machinedrum environment opens up new dimensions for the MD music production concept. Samples have been available in a wide range of music machines before, but we believe the MD take on samples is quite unique. Combining parameter locks, the direct control of pitch, start, stop, retrig and effects offers samples a fresh new life!

That's it for now
